Tran Dinh Hung

Intern Fullstack Developer

0335 250 819. tranhunghp22112004@gmail.com linkedin/pinochino https://pinochino-porfolio.vercel.app/

Phung Khoang, Hanoi

OBJECTIVE

Software Engineering student with basic experience in Java, Express.js seeking an internship opportunity where I can further develop my technical foundation and gain practical exposure to real-world development workflows. I hope to learn from experienced mentors, contribute to meaningful web application projects in any capacity I can, and gradually build the skills, mindset, and professionalism needed to grow into a capable full-stack engineer in the future.

EDUCATION

Hanoi University Oct 2022 - May 2026

Major: Bachelor of Software Engineering

GPA: 3.1/4

SKILLS

Programming languages	Java, Typescript/Javascript, HTML5, CSS3
Backend	Spring Boot, Spring Data JPA, Spring Security, NestJS, Express.js
Frontend	Nextjs (App Router), React, Redux Toolkit, React Query, Tailwind, Ant Design, Shadcn
Database	PostgreSQL, MySQL, H2, MongoDB
DevOps	Docker, Git/GitHub, Cloudinary
Tools	Visual Studio, Inteliji Idea, Postman

PROJECTS

Ecommerce Website 09/2024 - 12/2024

Backend Developer

+ Tech Stack: Java, Spring Boot, Spring Data JPA, Spring Security, Mapstruct, PostgreSQL, Cloudinary
• Implemented stateless JWT authentication and role-based authorization for secure multi-level access control
• Developed RESTful APIs for user, product, cart, and order management with robust validation and exception handling
• Built cart operations including item addition, quantity updates, and removal with transactional consistency
• Designed product and order workflows supporting full CRUD operations and admin-level moderation
• Integrated Cloudinary for reliable image upload, storage, and retrieval
• Applied clean architecture principles and optimized database queries for improved performance and maintainability
• GitHub Link: github.com/Pinochino/SpringBoot-React.git

AI Learning Assistant 08/2025 - 11/2025

Team of 5 – Team Lead, Backend Developer

+ Tech Stack: Typescript, Expressjs, Next.js (App Router), MongoDB, Redis, Antd Design, Docker
+ Server:
• Applied JWT-based RBAC for Admin, Teacher, and Student roles, ensuring secure multi-level access control
• Designed backend following MVC architecture with modular controllers and services for user management
• Implemented Google OAuth login alongside traditional email/password authentication, with bcrypt password hashing

• Built user workflows for registration, login, profile updates, role assignments, and account activation/deactivation

• Applied centralized validation and error handling to ensure reliability and maintainability
• Deployed backend via Docker for containerized, production-ready environment
+ Client:
• Developed authentication and authorization flows, including role-based access control for dashboards
• Implemented user interfaces for login, registration, profile management, and course interactions using Next.js and Redux Toolkit
• Optimized data fetching and caching with React Query to ensure responsive and consistent UI state
• GitHub Link: github.com/Pinochino/AILearningAssistant.git

Pop Mart 02/2025 - 04/2025

Team of 4 – Frontend Developer

+ Tech Stack: Javascript, React, Redux Toolkit, Shadcn
• Developed user-facing pages for registration, login, profile management, and role-based dashboards
• Built cart management functionality: add, update, and remove items with real-time state updates via Redux Toolkit
• Implemented product listing pages with filtering and sorting, ensuring smooth navigation and quick rendering
• Optimized component rendering and state management using React Hooks and memoization for high-performance UI
• Designed reusable components and modular architecture for maintainable and scalable frontend
• GitHub Link: github.com/Pinochino/IWS_Final.git

CERTIFICATIONS

Hanu Test of English Proficiency – Level B2 2025

SOFT SKILLS & LANGUAGES

Languages: English (B2), Japanese (N4)
Skills: Team leadership, Cross-functional collaboration, Agile development, Problem-solving, Fast learning
